PEACE AND WELFARE TO ALL EVERYWHERE

## AN APPEAL

*Dear Blessed Soul, Dhanyathman!*

Thasmai Charitable Trust has great pleasure to announce the commencement of its next phase of activities, for the benefit of the world at large. We invite the wholehearted support and active participation of all well meaning individuals and corporate bodies to make this a success and help achieve its objectives we are glad to briefly explain.

- Acquisition of a suitable acreage of fertile land to an extent of 100 acres – ₹

- Establishment and development of holistic agricultural farming - <> ₹
- Develop an extensive free-to-roam Goshala to take care of cattle during and after their yielding years - <> ₹
- Upliftment of underprivileged local communities through education and upskilling- <> ₹
- Establish an education complex along the lines of Arsha Gurukulam : <> ₹
- Establishment of an ashram to continue a unique meditation method : <> ₹
- Develop a research centre to validate and publish findings of spiritual significance : <> ₹
- Provide basic accommodation for inmates, guests and trainees <> ₹
- Establish suitable spaces for outdoor gatherings <> ₹

Corporate bodies, both in the public sector and private and worthy individuals may come forward to contribute generous financial assistance as donations and also help us locate this project by offering land. The unique meditation practice called

*Thasmai Guruji is an enlightened person, on the spiritual path for a decade. A former film maker, during his spiritual quest, he experienced fourteen subtle dimensions in the universe and several esoteric secrets unknown to anyone so far. He has accepted as his teacher and ideal the late Sree Narayana Guru from Kerala. Guruji's spouse Slimly Sudhakaran, a former software professional, is deeply involved in the mission with Guruji. They have a son and a daughter.*

**SMS Meditation** has gained popularity and acceptance among a significant slice of communities in the south of India. The practice applies its focus on Sun, Moon and Stars as proven cosmic accessible sources of energies, remove complicated karmic

baggage, collect health sustaining immunity and even change the course of human destiny if followed along our Guruji's guidelines.

We have also initiated a research wing to validate the findings and publish them in reputed spiritual journals. At this juncture we invite you to connect with us and explore this unique method of introspection. It should be noted that the practice lays no restriction on ethnicity, religious beliefs or creeds, the only injunction is on abstinence from common vices as alcohol and a strictly vegan food habit.

We sincerely hope the project will attain its desired objectives over a period of two years commencing in 2025.

We have made our humble beginnings in a rented premise in Bengaluru, Karnataka, India; it is our dream to continue in the same general ecosphere blessed by a salubrious climate, highly conducive to both holistic farming and the practice of spiritual disciplines. Do feel free to connect with us to enquire more of the project's details.
